Historic Queenstown

origins OF QUEENSTOWN

The pioneering spirit of early settlers has shaped the Southern Lakes region. People have always been drawn here, starting with early Maori who came in search of pounamu (native greenstone) and European settlers who followed with sights set on fertile grazing land. They discovered much more when gold lit up the region's waterways - goldrush fever hit in the 1860s and was the start of an ongoing international fascination with the region.

Today around 2 million visitors a year are drawn to the Queenstown region. The vibrant energy, majestic alpine scenery and limitless options for activities and adventure, combined with the warm welcome received from locals, sets the stage for a world class visitor experience. Queenstown has seen significant growth over the past decade - more than 25,000 people live in the wider district. Tourism remains the backbone of the local economy although general business services, wine, education and construction industries also flourish.

LEGENDARY

Maori legend tells a beautiful tale of the formation of Queenstown's Lake Wakatipu - formed by Matau, an evil giant who kidnapped the beautiful daughter of a Maori chief.

Her rescuer Matakauri destroyed Matau by fire, burning him while he lay asleep. Water from the rivers and melting snow from the mountains filled the giant hole he left in the ground. This formed the shape of Lake Wakatipu as we know it today. Matau's head rested in Glenorchy at the north of the lake, and his feet south in Kingston. Queenstown sits at Matau's knee. Legend has it Matau's heart still beats today, explaining the 'tidal' rise and fall of Lake Wakatipu.

The Maori people first inhabited the area in search of food, including the flightless Moa. They also looked for coveted pounamu (greenstone), deemed 'taonga' (treasure). In the absence of any local metals, pounamu was used to craft tools, weapons and jewellery.

MILFORD SOUND

According to Maori legend, Piopiotahi (Milford Sound) was formed not by rivers of ice, but by Tu-te-raki-whanoa, an atua (godly figure) who was given the task of shaping the Fiordland coast. Singing a powerful karakia (chant), he began attacking the towering rock walls with his toki (blade) called Te Hamo.

As he moved further north, Tu-te-raki-whanoa perfected his work, creating long winding inlets to provide refuge from the restless, often stormy open seas. Piopiotahi is said to be his finest sculpture.

ARROWTOWN

Only 20 minutes from Queenstown, Arrowtown is central to some of the region's best walking and cycling tracks, golf courses, ski areas, art galleries and wineries.

There's always something to discover from a stroll along the river to a hike in the hills rich in history. The town also offers vibrant retail stores brimming with new seasons' products and delicious meals crafted from fresh local produce.

quick TIPS

- Arrowtown has a wide range of historic and recreational trails for all fitness levels including the Arrow River Trail, the historic Chinese Village, Macetown walking track and the Queenstown Trail.

Arrowtown's outstanding coffee culture is an attraction in itself with friendly cafés, award-winning restaurants, traditional pubs and boutique bars. Visit the Lakes District Museum for information and maps on Arrowtown's attractions. Explore stories and exhibits from the early Maori, through the early pioneering days, to the exciting mining era of the late 1800s. Shopping in the village is a pleasure - galleries feature fine arts and crafts while a boutique cinema specialises in art house, classic movies and new releases. Arrowtown is surrounded by three superb golf courses - Millbrook Resort, The Hills and the Arrowtown Golf Course. Some of Central Otago's best wineries are minutes away and snow enthusiasts

will enjoy Arrowtown's close proximity to five ski areas.

The cry of 'gold' in 1862 enticed miners to the Arrow River, one of the world's richest sources of alluvial gold. During the gold rush the population reached 7,000. These pioneers built small stone and wood cottages, established churches, and planted beautiful trees. Through careful preservation the legacy of the early settlers is retained in a fascinating picturesque town where the past and present seamlessly blend. Arrowtown is ideal for a day visit or to fully enjoy its unique charm stay a while at one of the accommodation options just minutes from the town centre.

GLENORCHY

The 45km drive from Queenstown is one of the most scenic in the world along New Zealand's longest lake, with breathtaking views, hanging valleys, glaciers, islands, waterfalls and mountains.

Bordered by Mount Aspiring National Park, a New Zealand World Heritage Area, Glenorchy is the gateway to some of New Zealand's best scenery, the Routeburn Track (an award-winning alpine walk with stunning vistas of sweeping valleys and majestic peaks) and the aptly named Paradise.

Glenorchy has great dining and accommodation options, a visitor centre, garage and general stores. Glenorchy is famous for possum fur products and you'll find New Zealand-made designer garments and gifts.

Glenorchy's surrounding landscape is a prime location for film shoots - you'll recognise scenes from The Hobbit Trilogy, Lord of the Rings Trilogy, The Chronicles of Narnia, Wolverine, The Water Horse, and The Lion, The Witch and The Wardrobe as well as Tourism New Zealand's advertising.

This natural wilderness can be explored by foot on a multi-day hike on the Routeburn, Greenstone or Caples tracks, or one of many day or overnight hikes exploring Mount Aspiring or Fiordland National Parks. Horseback rides across alluvial

river flats into Paradise are popular and so too are jet boat trips into the heart of this remote backcountry. Explore the lake by kayak or charter boat. The lake fishing is fantastic and some of the world's best high country fly fishing rivers are on hand, such as the Greenstone River.

A scenic flight offers the chance to soar over uncharted wilderness, or freefall into paradise with an exhilarating skydive. In winter fly to pristine heli-skiing slopes in the surrounding peaks for an incredible New Zealand snowsports experience.

FIORDLAND

Extraordinary scenic beauty has earned this region a reputation as a significant sightseeing and walking destination, and a "must see" for anyone travelling to New Zealand.

Fiordland has achieved World Heritage status and of the fourteen fiords in the Fiordland National Park, Milford Sound is the most famous and accessible. The Te Anau to Milford highway is a spectacular alpine journey and is one of the world's most scenic drives. A spectacular 2.5 hour journey from Te Anau to this majestic destination, there are many photographic stops and short walks along the way to Milford Sound, so allow plenty of time. For an underwater perspective on this unique environment visit the underwater observatory.

Doubtful Sound is remote and best known for its silent grandeur. The trip begins in Manapouri and the journey takes you across Lake Manapouri, New Zealand's most beautiful lake, over Wilmot Pass and into Deep Cove for a truly memorable cruise. Both fiords can be explored by day or overnight cruise or kayak trips. Remember to look out for dolphins, seals and penguins.

Fiordland National Park is home to some of the world's greatest independent or guided day or multi-day hikes including the Milford, Kepler, Routeburn, Tuatapere Hump Ridge, Greenstone and Hollyford tracks. Walks can be combined with helicopter or fixed wing flights, or jet boat rides. Fiordland has world-class fishing and a stunning golf course, or if relaxing is more your thing there is an awesome cinema and plenty of hotels, shops and restaurants.

The beautiful lakeside town of Te Anau, located on the shores of the South Island's largest lake, is the gateway to Fiordland and provides a perfect base to explore the area. Here you can enjoy a range of activities on or off the water, including the Te Anau glow worm caves.

When you travel to Fiordland you will be visiting one of the most beautiful and dramatic parts of New Zealand.

brilliant BIKING

Part of Nga Haerenga - The New Zealand Cycle Trail 'Great Rides' network, the 120km Queenstown Trail offers cyclists and walkers the chance to explore unspoilt private land, journey over mighty suspension bridges crossing three iconic rivers and take in the views of two lakes - not to mention the stunning alpine landscapes as far as the eye can see.

One hour, half-day and multi-day options are all popular and there are many established local operators offering small or large group bike hire and guides, if required, and the option of electric bikes to make cruising around that little bit easier.

Rides on the trail network range from easy to intermediate and a few advanced trails also feature. Whether walking or cycling, trails are wonderful when experienced with family and friends and with a camera and picnic handy. Planning is easy with tools, tips and maps at queenstowntrail.co.nz

The Kelvin Peninsula Loop is an easy grade trail with beautiful views across Lake Wakatipu towards Queenstown and the surrounding mountains; look out for the stunning collection of sculptures as you ride or walk.

Other trail highlights include the Gibbston River Trail which begins at the end of the historic Kawarau Suspension Bridge - itself a major attraction as the home of AJ Hackett bungy. From here the journey explores wine country and as you ride towards the east you'll be spoilt for vistas, with the Kawarau River far below on your left and to your right, Gibbston vineyards, architectural masterpieces and iconic Central Otago landscapes. This section can be enjoyed solo or with a knowledgeable local guide amongst the vines, explaining the region as you ride.

From Gibbston either head to Arrowtown via the Arrow River Bridge Ride or back to Queenstown via the Twin Rivers and Lake Wakatipu Ride. If legs are tired or other activities are on the agenda, call for a transport pick-up for you and your bikes.

The Manse Road Trail enables walkers to explore the picturesque village of Arrowtown on foot and learn more about the fascinating history of its restored Chinese Village via English and Simplified Chinese interpretation panels.

By travelling across Lake Wakatipu by boat, the Queenstown Trail now links to the Around the Mountains trail and then takes cyclists onwards to Mavora Lakes through the native tussock lands of Walter Peak and Mt Nicholas Station. This new trail opens up access to some incredible back country terrain and can be experienced as a guided one-day or multi-day ride.

In this internationally-renowned cycling destination, you'll also find a jump park, single and multi-day heli-biking options, gondola-accessed downhill mountain biking and at Rabbit Ridge in Gibbston Valley there's 30km of single tracks over stunning high country terrain.

The Queenstown Trail network is enjoyed as much by walkers as it is by cyclists.

shopping & RELAXATION

SHOPPING

Queenstown's lively streets and cobbled laneways offer a shopping experience that's brimming with New Zealand art, fashion, craft, and souvenirs. Big brand stores share the streets with locally run boutiques and designer clothing outlets, open all day and late into the evening, every day of the year. Getting around the downtown area is best by foot - many shops are in pedestrian areas or hidden away in narrow laneways. The Landing shopping precinct and Remarkables Park Town Centre in Frankton are both a 15 minute bus ride or drive from central Queenstown. Here you'll find a spacious shopping area where locals and visitors shop in large format retail stores and boutique gift and clothing outlets. Great coffee, deli food stores and artisan bakeries also feature. Five Mile and Shotover Park are new shopping areas, also in Frankton, offering more large format retail and supermarket options.

RELAXATION

There's a nourishing energy to the Queenstown region where wide open skies, towering mountain peaks, flora and fauna work to still the mind and rest the soul. Relax, recharge, revive and take time to boost well-being. Superb day and resort spas offer a comprehensive range of therapies of all types. Immerse yourself in calming heaven with floats, massages, yoga, cleansing treatments, wraps, soaks and grooming, then emerge to face the world glowing, toned and gorgeous.

Choose from spas with fabulous fireplaces, cosy nooks, expansive decks and gym, pool and sauna facilities, or opt for a truly transforming, multi-day, residential retreat.

COFFEE ANYONE?

- Coffee and tea culture flourishes in downtown and lakeside areas. Many cafés have courtyard space with magical views and in spring and summer the streets buzz with alfresco diners basking in late sunsets, drinking locally crafted and award-winning beers and wine. In winter you can cosy up with hearty fare in front of roaring fireplaces.

wine SCENE

Queenstown is the gateway to the Central Otago region where you'll find 200 vineyards within a 90 minute drive of the town centre - 80 have cellar doors for tasting and purchasing wine. Central Otago consists of six sub-regions; Gibbston, Cromwell/Pisa/Lowburn, Bannockburn, Bendigo, Wanaka and Alexandra, all producing world-class wines - the most famous of which is multi-award winning Pinot Noir. What makes the region's wine so special is the landscape. At a latitude of 45° south, Central Otago is the southernmost wine growing region in the world with unique shaly soil and climate providing excellent grape growing conditions. Local winemakers produce award-winning wines of exceptional elegance and longevity.

The closest sub-region to Queenstown, Gibbston is just a 20 minute drive from the town centre and home to wineries offering unique tours, sophisticated restaurants and knowledgeable hosts keen to share wine tips.

In autumn there's much excitement as the region's thousands of tonnes of grapes are harvested. Many wineries offer tastings, tours and cellar-door sales throughout the year and some have divine winery restaurants. Private and group wine tours are a popular way to explore and sample the flavours of the region.

fresh FLAVOURS

Queenstown has been described as a melting pot of international cuisine, with over 120 restaurants, bars and cafés in the area. Local food producers, chefs and winemakers are passionate about this place which has become renowned for its award-winning cuisine and wine.

World-class produce sourced locally inspires menus with seasonal dishes like whitebait, wild pheasant, rabbit, hare, venison and lamb. The culinary options are vast; choose from Pacific-influenced, traditional pub, winery kitchen, stylish café bar, French, Asian, designer burgers, Japanese, Indian, Chinese, Turkish, Vietnamese, Mexican, gourmet bakeries or steak specialists.

Nightlife

Lively, urban and fast paced or sophisticated and relaxed - Queenstown's nightlife is exceptionally varied. The range of establishments would make any large city proud, yet Queenstown is compact, charming and friendly. Sophisticated wine bars sit alongside cosy pubs, pool bars, casinos, ice bars and energetic backpacker haunts. Relaxing times can be had with a cocktail, glass of wine or locally brewed beer, followed by a spot of fine dining and topped off with hot chocolate by the lake's edge.

Looking for a higher tempo? You can move from bar to bar, dance to international DJs before chilling out to dub beats at one of the town's late clubs. In summer, the party spills outside onto decks and courtyards, while in winter there's plenty of après ski fun with open fires and warm atmospheres.

Art & Community

Queenstown is a sophisticated, multi-cultural town and this is reflected in its wealth of creative talent which ranges from artists, photographers and designers to musicians and actors. The arts and crafts scene spans traditional, contemporary and boundary-breaking work and it would take several days to do the region's gallery trail full justice. A Saturday morning market in the heart of Queenstown has artisan products and foods, and you'll find fresh produce, fruit, vegetables and baked goodies at the Red Shed at Remarkables Park in Frankton during summer. Queenstown is home to a number of community theatre groups and a talented group of local actors, musicians and singers.

Film

Easy access to some of the most beautiful locations in the world and a well-established film industry make Queenstown popular for films and television commercials. Films produced here include The Hobbit Trilogy, Lord of the Rings Trilogy, The Chronicles of Narnia, 10,000 BC, The Water Horse, 30 Days of Night, Wolverine, Prince Caspian and the Bollywood super-hit I Hate Luv Storys. Visitors walk where hobbits walked or drive the same road as Wolverine; specialised tours to film locations are even more stunning in real life. Queenstown is a well-established screen production centre with specialists in commercial productions, line producers, stylists, make-up artists, location scouts, extras, technical professionals and film equipment hire. Queenstown Lakes District Council has a dedicated film office at www.filmotagosouthland.com

suggested Itinerary themes

Inspiration

Explore a World Heritage area with mountains, valleys, crystal clear waterways and green forests as far as the eye can see. A scenic flight showcases the vastness of this southern wilderness.

Inspiration can also be drawn from a round of golf on the immaculately-groomed greens of resort courses or fairways looking out to The Remarkables mountains. In Queenstown a 10-minute scenic gondola ride to Bob's Peak gives breathtaking lake and mountain views.

The 45-minute drive along Lake Wakatipu to Glenorchy is one of the world's most scenic - and distant views of glacial landforms along the way are simply awe-inspiring. Once in Glenorchy, valleys and river flats beg exploration by horseback, four wheel drive or on foot. For sheer majesty, a trip to Milford Sound is a must.

Adventure

Even the most laid-back of visitors will find some form of adventure in this idyllic part of the world. Cruising across Lake Wakatipu gives a whole new perspective to the alpine town. Bungy jumping and jet boating are some classic Queenstown adventure activities, while skydiving, hang gliding, rafting and zip-lining are amazing ways to take in the view from air or water with some fitness required. Heli mountain biking or tramping into the wilderness requires a bit more exertion. And don't forget the awesome skiing and snowboarding to be had for every level of snow sport enthusiast during the winter season (early June to early October).

Indulgence

Holidays are about you and a little indulgence is an essential element. Queenstown is blessed with day spas where you can be pampered, pummelled, bathed and lathered with treatments designed to make you feel beautiful, special and indulged. Employ a personal trainer if you're really serious.

Once the work is done a wine trail into Gibbston valley could be considered essential. The grapes that grow here become some of the world's finest Pinot Noir and the valley is also home to several fine winery restaurants. Indulge, just a little.

- For something special or some expert advice for your clients, contact one of our team today.

Romance

Clear mountain air, beautiful vistas and starry night skies lend themselves to a romantic escape. The possibilities are endless - a helicopter ride delivering you both for a picnic on a peak, or a dawn hot air balloon flight followed by a champagne breakfast. Dinner under the stars takes on new meaning when the Milky Way's brightness is undimmed by artificial light, so take your love for a candlelit dinner on the waterfront or aboard a luxury boat on an overnight cruise deep in Fiordland's Doubtful Sound. Romance on a shoestring could mean a bottle of Pinot Noir and fish 'n' chips enjoyed on the lakeshore.

Explore the Southern Lakes region

Compact town centres with interesting shops make for fun and easy exploration of Southern Lakes towns. A short stroll from the town centre you'll find the Queenstown Gardens perched on a magnificent peninsula jutting into the lake. Walking or cycling trails surround all Southern Lakes towns and native beech forests are within easy reach of Queenstown, Te Anau and Lake Wanaka. Fishing in crystal clear waterways is also a hugely popular.

Heritage & Culture

People have been drawn to this region since the first Maori visited around the 11th century. Farmers followed, then gold miners, then holiday makers. Each has left rich evidence of their time here, providing a fascinating journey of discovery for the modern visitor. Goldpanning in the Arrow River, a walk around the humble homes of the nearby Chinese Village followed by a visit to Arrowtown's Lakes District Museum powerfully evokes the hardships faced by goldminers and their families. A steamboat trip across Lake Wakatipu harks back to a more gracious era. A Wakatipu Arts Trail tour demonstrates the creativity of local artists, while many locally produced events (Winter Festival, Autumn Festival, Jazz Festival) celebrate the here and now.

'An Hour of Power'

In an unforgettable New Zealand Jet boat experience you'll be transported from the sophisticated downtown area into the channels of two of New Zealand's most scenic rivers.

Across the pristine waters of Lake Wakatipu and through the tranquil beauty of the willow-lined Kawarau River, the Jet boat then speeds into the shallow, fast-moving braids of the Shotover River. The 43 kilometre, hour-long adventure highlights the magnificent diversity of Queenstown's waterways. Unique glimpses of local life are afforded as the homes lining the lake shore flash by, before passengers take in stunning views of The Remarkables mountain range and natural land formations.

But it's not just the views and river gardens - the excitement begins in the Shotover River, where your driver's skills are challenged as he navigates the shallow, braided channels of this world-renowned river. At speeds of up to 85 kilometres per hour - in water often less than 10 centimetres deep - this is where the Jet boat comes into its own. Passengers hold tight onto heated hand-rails and feel the adrenaline surge as the driver dodges sandbanks, rock-faces and puts the boat into 360 degree spins.

Driven with passion for over 50 years, KJet is the Original Queenstown Jet boat operation. It's an unforgettable experience that offers huge excitement as well as insight into local and historic knowledge about the gold-rich Shotover River, the majestic Southern Alps landscapes and native New Zealand wildlife.

Conference and Incentive

Off the plane and straight onto a Jet boat for an exhilarating airport transfer to wow your delegates, a Maori greeting along the way and champagne on arrival at The Main Town Pier - a totally unique arrival into Queenstown.

KJet packages include transfers to an exclusive heli-pad along the Kawarau River, to Moonlight Country, Gibbston Valley, and Jacks Point.

For capacity variety, flexibility and innovation don't look past KJet. Fun, excitement and just a great way to travel, KJet has the largest capacity on the Kawarau and Shotover Rivers, moving up to 140 people at one time.

Underwater Observatory

Stepping out of the boat, guests descend beneath the surface of the lake into the fascinating Underwater Observatory, here guests can check out the underwater inhabitants of Lake Wakatipu. Diving ducks, massive trout and slinky eels mix and mingle just metres from the lakeshore. Underwater Observatory offers fascinating and informative entertainment for all ages in all weather. Informative story boards tell the Maori mythological history of the lake and the 55 year history of KJet while feeding the fish offers excitement for the fish as well as the viewers.

It takes a certain kind of person to jump from an aircraft at 15000ft into thin air. It takes courage. Harnessed to an experienced Jumpmaster, you step out of that aircraft door and for some 60 seconds you plummet towards the ground at 200 km/hour - Terminal Velocity.

Expect sensory overload as your mind, body and soul fight against every natural self-preservation urge. The impact on your life that the act you are now contemplating will have, cannot be overstated. The personal challenge is immense. Immense, because the only thing preventing you from enjoying this, one of the most primal life-shaping experiences, is your own mind. You must choose. To go through life able to say "yes, I did it", or to go through life knowing that you had the opportunity, but you turned it down and walked away from becoming the complete person you could have been.
